

QUADRA INFRATEL was established by a versatile group of dynamic professionals in 2003. The organization functions with the aim of providing single window solutions to all its clients; i.e. the telecommunication operators and telecom infrastructure developers, in expanding their services across the nation; via its expert support service & delivery systems.

The history of Quadra Infratel reflects the mettle in its genes when a bunch of highly motivated and committed professionals made a modest beginning with 5 people on board. Since then, there's no looking back for this vibrant organization. Today, Quadra Infratel has over 400 highly qualified and competent people as its workforce, who has delivered across the board services at over 10,000 telecom sites.

Quadra Infratel is now geared up to expand its arena and its services to meet the rising need of rapidly expanding telecommunication industry.

TURN KEY PROJECT MANAGEMENT

Quadra has a rich experience in providing stand-alone project management services to the telecom sector. We cater to the entire life-cycle of project implementation for the telecom sites. The project management team handles the entire project on turn-key basis - from site acquisition to hand-over of site. This entails, coordinating with multiple contractors, to achieve rollout numbers ensuring quality output within specified time schedules, in addition to providing daily MIS reports subsequent to critical milestone checks.

Quadra has successfully worked upon more than 10,000 sites for various telecom operators.

OPERATING PRINCIPLES

-  Our client's interests take precedence at all times.
-  Our assets are our people, capital and reputation. We are dedicated to complying fully with the letter and spirit of the law, rules and ethical principles that govern us.
-  We take great pride in the professional quality of our work. We have an uncompromising determination to achieve excellence.
-  We stress on creativity and imagination. While recognizing that the old way may still be the best way, we continually strive to find better and more effective solutions to challenges that come our way.
-  We identify and recruit the very best and most suited candidates.
-  We emphasize teamwork, plus, value individual creativity.

We are highly competitive players within the telecommunication industry; and, we strive uncompromisingly, towards developing and enhancing excellent relationships with our clients.
